

EVERSAFE SECURITY SOLUTIONS

The First Line
of Defense

SAFETY

Stop intruders
from entering your
space without
hindering the look
of your building

FLYING DEBRIS PROTECTION

from evil people,
storms, hurricanes, etc

FIRE PROTECTION

blocks radiant flames
and heat, which
affects the speed of
fire spreading

HEAT PROTECTION

prevents up to 90%
of solar heat gain
through glass doors
and windows

UV PROTECTION

blocks up to 99.9% of
harmful UV rays

DO YOU KNOW?

Over 8,000 home/commercial invasions happen in the US every day and 85% of all invasions occur through Entry Doors with the balance through vulnerable windows.

WHY EVERSAFE?

Eversafe's Security Glass Laminate & Security Screen Doors and Security Windows protects your properties and brings you peace of mind.

SECURITY GLASS LAMINATE

Eversafe's laminates hold glass together, creating a barrier that will help slow any attempt to gain access.

COMMERCIAL/LIFESTYLE BENEFITS:

- Super strong security stops/dramatically slows down intruders
- Thermal properties that decrease your power bills
- Clean finished look that does not hinder views and reduces unwanted glare
- Provides a potential safety barrier for windblown debris during storms

SECURITY SCREENDOORS AND WINDOWS

Eversafe's security screens have an ultimate tensile strength of 144,000 psi which helps create a nearly impenetrable barrier.

COMMERCIAL BENEFITS:

- Can be used in windows and doors, fencing, as a fire barrier, and more
- Can be made to fit multiple door entrance sizes and shapes
- Provides enhanced security to keep unwanted intruders out of your business and/or property
- Helps in reducing the power bills in Summer/Winter
